REPORT ON

Poster Presentation on Science Day

- First Session: The NPTEL toppers 6 students who get Silver and Gold position get appreciated

by Institute in the Presence of Respected Principal Dr. R. B. Barjibhe sir, and Dr. S. B. Ojha, Head Basic Sciences and Humanities, Dr. D. D. Patil Head Computer Science and Engineering, Dr. G. A. Kulkarni Head Electronics and Telecommunication Engg., Prof A. V. Patil Head Mechanical Engg., Dr. P. P. Bhangale Head Civil Engg., Dr. A. P. Chaudhari Head Electrical Engg., Prof. D. G. Agrawal Head AI&DS and other faculty members.

- Second Session: The Short film "Meet the Scientist" which on the discovery of the Raman effect by Indian Physicist Sir C. V. Raman presented by the Prof. A. D. Pathak.
- Third Session: In Innovative Idea Demonstration the team Compbotz present the efforts for to success the Agrobot which is most popular and successful innovation of team Compbotz won

47 National level competitions and selected in International Territory.

- Fourth Session: Science Exhibition: Near about 24 students prepare posters and sketch related to different science innovative ideas.

Tree Plantation Drive

Trees represent life, growth, peace and nature. They produce oxygen, clean soil, prevent drought, control flood related disasters, prevent soil erosion, improve physiological, mental and spiritual health, and also reduce carbon footprints. Keeping this in mind the campaign for the Tree program was organized by the Shri Sant Gadge Baba College of Engineering & Technology, Bhusawal on 15th July 2022. The following activities have been undertaken so far to promote this campaign: - All students were informed about the "Tree Plantation Drive" through notice to motivate them to plant saplings of trees. - A "Tree Plantation Drive" was organized at Shri Sant Gadge Baba College of Engineering & Technology and Shri Sant Gadge Baba Mandir Shantidham, Bhusawal. All the staffs supported the tree plantation drive and motivated the students to take care of the trees, so that they grow into healthy trees. 44 number of Students enrolled were distributed free saplings which were planted in the open ground in premises of the college and at Shantidham.

REPORT ON

Webinar on Renewable Source of Energy for community

This report outlines the details and outcomes of the awareness activity conducted on 18/06/2021 to promote understanding and awareness of renewable energy sources.

The primary objective of the activity was to educate participants about the importance of renewable energy sources, their environmental benefits, and the role individuals can play in promoting sustainable energy practices. Participants included students, faculty members, and community members interested in environmental sustainability.

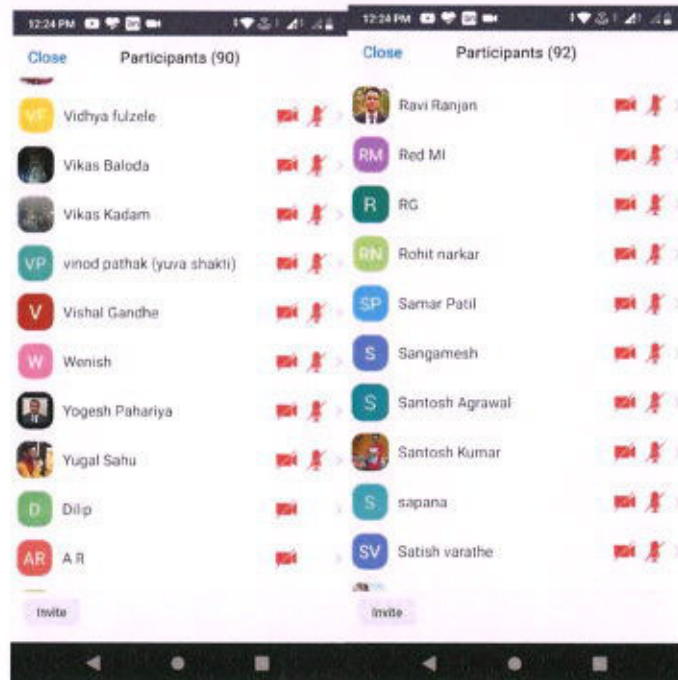

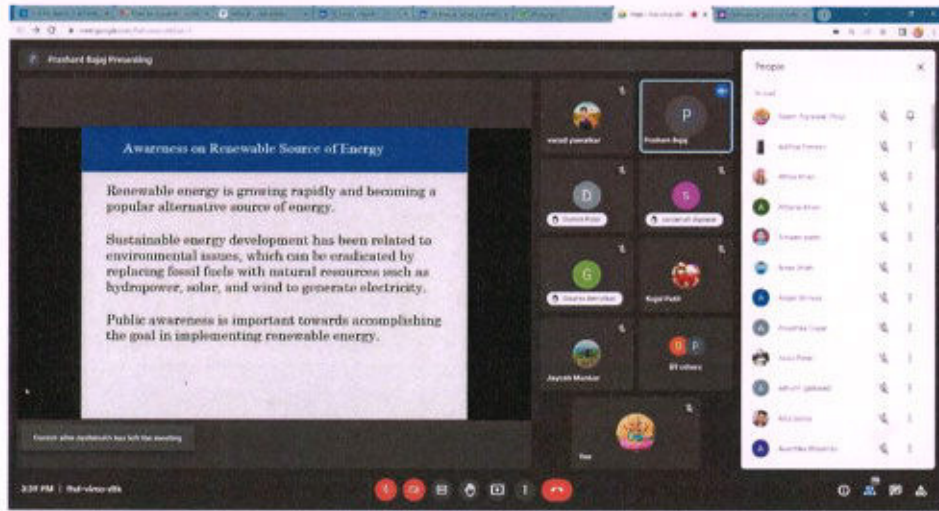

The awareness activity proved to be a success in achieving its objectives, fostering a greater understanding of renewable energy sources among participants. The positive feedback and active participation indicate a growing interest in sustainable practices.

REPORT ON

Awareness Campaign on Say no to crackers

S.S.G.B.C.O.E.T., Bhusawal organized awareness programme on cracker free Diwali under the campaign "SAY NO TO CRACKERS" on 28/05/2021.

S.S.G.B.C.O.E.T., Bhusawal initiatives to create public awareness towards minimizing the pollution levels by bursting of the fireworks. The objective was to carry out awareness drive and sensitizing public at large on the harmful effect of crackers & to inculcate the sense of proactive action, innovation and teamwork among students towards environment.

The campaign created awareness in 30 students about the detrimental effects of burning crackers in terms of the damage it causes to the environment. It helped students to understand the importance of festival in its true spirit of celebration without harming our precious Earth. The S.S.G.B.C.O.E.T. Bhusawal have played an important role in the Crackers free Diwali Campaign and the students make people aware about the hazardous effects of bursting crackers on Diwali.

REPORT ON
Tree Plantation Event

Trees are symbols of nature, tranquility, growth, and life. In addition to lowering carbon footprints, they also provide oxygen, maintain clean soil, stop soil erosion, avoid drought, manage flood-related calamities, and enhance mental, emotional, and spiritual well-being. In light of this, the Shri Sant Gadge Baba College of Engineering & Technology, Bhusawal, organized the Tree program campaign in college campus on 03/09/2018. To date, the campaign has been promoted through the following initiatives: - A message educating all students about the "Tree Plantation Drive" was sent, encouraging them to plant tree seedlings.-Shri Sant Gadge Baba College of Engineering & Technology, Bhusawal, held a "Tree Plantation Event." All of the staff members encouraged the students to take care of the trees so that they develop into healthy trees and supported the effort to plant trees. Free trees were given to 27 registered students, who planted them in the open spaces on the college's campus.

REPORT ON

Awareness Campaign on Rain Water Harvesting

The major issue related to the citizens during dry seasons is the lack of water availability. It is being faced due to the unlimited discharge of ground water. The only solution of this problem is to recharge the ground water sources by using Rainwater harvesting. Rainwater harvesting increases the availability of water during dry seasons by increasing the levels of dried borewells and wells. Surface water supply is readily available for various purposes thus reducing dependence on underground water. It improves the quality of ground by diluting salinity.

APPRECIATION LETTER

I wanted to take a moment to express my sincere appreciation for your outstanding efforts in **Raising Awareness about Climate Change** by **Shri Sant Gadge Baba College of Engineering and Technology, Bhusawal**. Your commitment to this crucial cause has not gone unnoticed, and I am truly inspired by your dedication.

In a world where environmental issues are increasingly urgent, your advocacy and awareness initiatives play a pivotal role in educating and mobilizing communities. Your ability to communicate the complexities of climate change with clarity and passion has undoubtedly made a positive impact on those fortunate enough to hear your message.

The tireless work you put into organizing events, creating informative content, and fostering discussions on climate-related topics demonstrates your unwavering commitment to a sustainable future. Your actions not only contribute to increasing awareness but also empower individuals to make informed choices that collectively lead to a positive environmental impact.

It is heartening to witness individuals like yourself making a meaningful difference in the fight against climate change. Your efforts serve as a beacon of hope and motivation for others to join this important cause. As we navigate the challenges posed by climate change, your advocacy stands as a testament to the power of individual action.

Thank you for being a dedicated champion for climate change awareness. Your contributions are invaluable, and I am grateful for the positive change you are helping to bring about.

Best regards,

NB Gadge
Truly yours

REPORT ON

Swachha Bharat Abhiyan – NirmalyaSankalan

Ganesh Chaturthi, a vibrant celebration of faith and community, often leaves behind a hidden cost – environmental pollution. Recognizing this challenge, SSGBCOET Engineering College has emerged as a champion for sustainability with its "NirmalyaSankalan" initiative on occasion of "Anant Chaturthi" " 17th Sept, 2018 under the guidance of co-ordinator Prof. R. C. Patil & Prof. N. M. Khandare. Around 50 to 60 students were participated in this program. This program, focusing on responsible disposal of puja materials during Ganesh Visarjan, exemplifies responsible celebration and community engagement.

NirmalyaSankalan goes beyond mere awareness campaigns. It actively implements sustainable practices, minimizing environmental damage while preserving the sanctity of the festival. Our Student Volunteers form the backbone of the program, dedicatedly organizing and executing NirmalyaSankalan. This fosters environmental consciousness and empowers them to become agents of change. Temporary centres was Tapi River Bridge strategically located near immersion sites allow volunteers to collect offerings, preventing them from entering water bodies. Collected materials are segregated and processed. Organic materials like flowers and prasad are composted, enriching the soil, while inorganic waste is recycled, reducing landfill burden.

REPORT ON

Awareness Campaign on Tree Plantation

On the occasion of National Tree Plantation Day on 9 July 2018 Department of Basic Sciences and Humanities organized an activity "TREE PLANTATION" under the guidance of Prof. Y. G. Pardeshi in which 42 students and faculty members were participated positively.

A staff and students-driven initiative successfully planted 24 trees in various locations. The event, organized to the raise awareness about the importance of trees in mitigating climate change. Volunteers, including students and staff actively participated in the plantation drive. The selected well suited tree species suited to the local ecosystem was planted. Post-plantation care guidelines were provided to ensure the sustained growth of the trees.

This collective effort underscores the organisation commitment to environmental conservation and the national goal of increasing green cover. Ongoing monitoring will assess the overall impact of the initiative on the local environment.

REPORT ON

Climate Change Awareness Campaign

On the occasion of World Environment Day, on 5th June 2022 SSGBCOET Bhusawal spearheaded a compelling Climate Change Awareness Campaign, on 4th June 2022 showcasing the institution's commitment to environmental sustainability. The campaign, designed to inspire action and consciousness among the student body and the local community, unfolded with a series of engaging events and initiatives. Prof. R. C. Patil was the co-coordinator of this event and around 36 students were participated in this activity.

A highlight of the campaign was a tree plantation drive, symbolizing SSGBCOET's dedication to environmental conservation. Students actively participated, fostering a sense of responsibility towards nature. Social media platforms were leveraged to amplify the campaign's reach, sharing informative content, info graphics, and success stories of eco-friendly initiatives.

The awareness drive culminated in a collaborative mural project, where students artistically depicted the importance of preserving the environment. The vibrant murals served as powerful visual reminders of the collective responsibility to combat climate change.

SSGBCOET's Climate Change Awareness Campaign not only educated and inspired but also cultivated a culture of environmental consciousness within the campus and the broader community. The institution's proactive stance in addressing climate change demonstrates a commendable commitment to a sustainable and resilient future.
