

Shri Sant Gadge Baba College of Engineering and Technology, Bhusawal

Core values of the institution:

➤ Excellence

We must challenge ourselves to emphasize excellence, a commitment to diversity, and a respectful work environment throughout all areas of the college. We must improve our administrative processes to properly serve our students, and to support our faculty and staff. Continuous improvement of our educational programs will strengthen the College financial solvency and enhance its reputation.

➤ Integrity

We focused on four necessary traits in order to become synergistic and succeed: A clear team purpose, solid communication, empowerment so the team can lead themselves, and finally make sure there is a commitment to the goal.

➤ Transparency

We are committed to promoting the highest standards of honesty and integrity to ensure that all members of the community recognize the inherent benefits of living these ideals and to guarantee that academic performance is evaluated reliably and rewarded fairly.

➤ Mutual Respect

We are committed to encourage the development of an environment in which every member of the community helps the spirit of trust, teamwork, openness, and respect that is necessary to embrace and fully capitalize on our professional community.

➤ Inclusion

We are committed to creating an institution and a society where everyone is appreciated and judged based on their contributions and performance rather than gender, race, religion, physical abilities, sexual identity, or socio-economic condition. Through

the work of this institution, we will both create awareness of, and work to eliminate, individual and institutional racism.

➤ **Environmental consciousness / Ecological sustainability**

We are committed to provide the best approach to teaching environmental literacy and social responsibility/civic Engagement is to combine strategies to include sustainability by incorporating multiple approaches simultaneously. Through the work of this institution, we will create awareness of biological control, use of natural resources and minimization of pollution and CO₂.
